for Political Affairs

Subject: Digest of Published Material on the
Future of the Atlantic Alliance

Members of the Special Group have suggested that a digest of opinion on the Alliance, compiled from books and articles published by statesmen and other well-known people, would be of assistance to them.

2. Accordingly, I asked Mr. Berdal, Mr. Inan and Mr. Vernon to review the published material available within the Secretariat. The first-fruits of their investigation are to be found in the folder attached.

3. A further effort will be made to track down and examine material elsewhere, especially with regard to political science publications.
