Annex 2 H 2601

Part of lessons learned  
by the reserve directory  
group GSÖ/64

Compilation of significant issues of cooperation brought up with allied military  
Authorities

A. Issues initiated by the Swedish headquarters

1. Supply issues regarding allied naval forces in the Baltic Sea subordinated [to Sweden].
2. Through the commander of the [Swedish] 4<sup>th</sup> air force group regarding the exchange of intelligence and air situation-data regionally across the border.
3. Importation of special spare parts for Hawk.
4. The exchange of necessary communications documents at the regional and at the central level.
5. Loan of UHF radio gear.
6. Setting up direct telephone connections between Norwegian and Swedish air operations centres, and between regional commanders.
7. A decision on areas of responsibility for naval and air operations.
8. Reports every 24 hours on the situation for allied forces (through Swedish liaison team).
9. Request for reports on the effect of the allies' strikes on the aggressor's ports and air bases.
10. The importation of certain military equipment , e.g. Sidewinder missiles.
11. Request for support from allied air force assets against air bases, ports, and invasion craft.

---

\* Translator's note: GSÖ -64 was a major war game/command post exercise held in 1964, in which cooperation with the West played a rather prominent role.

---

12. Request for support by allied nuclear strikes on Finnish, Baltic, and Swedish territory.
13. Request for the transfer of allied ground troops in Norway to Sweden, as a strategic reserve.
14. Request for the basing of allied fighter units from southern Norway in Sweden, to be included in Sweden's air defences.
15. Request for the evacuation of evacuees from Kiruna through Narvik.
16. Request for the sharing of information on the intelligence-picture at allied headquarters regarding certain areas, as well as the tasking of allied intelligence services against certain targets.
